**Article** : **OXFORD 45 mm - Honeycomb Fabrics**  
**Version** : 2020-01

---

This stylish, woven Honeycell fabric has a natural linen-look. The tangible and visible weaving structure, created by using slub yarn, gives transparent fabric Oxford a high-quality textile look and beautifully filters incoming light. Due to its 45 mm cellular structure and white backside, the fabric has excellent insulation and reflection qualities. Oxford is available in six natural colours that emphasise its pure look.
