

NON-TRANSPARENT

NON-TRANSPARENT

Devon 45mm

The Devon fabric is truly unique. The classic design on the front side of this fabric is realised by using the ionic/cationic dyeing technique. The white non-woven fabric on the back optimises the heat and light reflection properties of the fabric.

fabric specifications

composition	construction	transparency	form of cell	weight (g/m²)	thickness (mm)	colour fastness (ISO 105 B02)	metalized	Oeko-Tex standard 100	flame retardant	moisture resistant	pvc/halogen free
100% PES	front: woven fabric back: non-woven fabric	non-transparent	D-shape	269	0.39	4-5	no	yes	no	yes	yes
