

ARTICLE DATA SHEET

Article : **Palma BO 32mm - Honeycomb Fabrics**
Version : 2024-01

The insulating honeycomb structure combined with a reflecting white backside makes 100% blackout fabric Palma BO an essential article for every functional collection. The insulating quality of this non-woven fabric is enhanced by the silver coating on the inside of the cells. This 32 mm single-cell variety is available in a width of no less than 300 cm. It makes the fabric ideal for larger windows; even with larger dimensions the fabric folds into a thin stack.
