

Edmonton

Non-transparent Honeycell® fabric Edmonton has a high-quality weaving structure with a timeless, classic feel and subtle satin look. The front-and backside of this fabric have identical colours. Because of the honeycomb structure, the fabric has an insulating effect. It therefore contributes to energy savings throughout the year. Full-tone fabric Edmonton is available in a range of exclusive colours that create a feeling of luxury.

fabric specifications

composition	construction	transparency	form of cell	cell size	weight (g/m²)	thick-ness (mm)	colour fastness (ISO 105 B02)	Oeko-Tex standard 100	flame retardant	moisture resistant	pvc/halogen free
